PROFILE

I have a solid knowledge of HTML, CSS, and JavaScript, React which I constantly improve through self-created projects and regular training. As a beginner frontend developer, I have worked on several projects where I was responsible for creating responsive user interfaces and implementing functionality.

EMPLOYMENT HISTORY

CNC Operator
2014

EDUCATION

High School
September 2011 — June 2013

COURSES

Botcamp Frontend Developer + React, Akademia 108
January 2023 — March 2023

React School Advance, React School
May 2023

About me

As a frontend developer, I specialize in crafting appealing and functional user interfaces. I invite you to explore my portfolio, where you can find examples of my work. Simply follow the link and discover why giving me a chance will be a decision you won't regret!

My Folio

Travel Agency Project in TypeScript, React, and Sass:

1. Written in TypeScript for greater clarity and code safety.
2. Using React to create multiple views and components and advanced patterns.
3. Styling with Sass, allowing for more advanced CSS styles.
4. Functionality related to travel organization and reservations.
5. Using of various libraries in React. (Router, Redux ...)

And many many more

This is a showcase project that I would like to present, but my portfolio also includes other noteworthy projects. More information about the project and the technologies used in it can be found in the README file on the GitHub . I encourage you to take a closer look at the project.
